

11/2/2021

I am submitting the attached petition to the Village of Colonie regarding the proposed 29 Vly road development. I spent 5 afternoons going from house to house on Chris Place, Lorelee Drive, Daniel Lane and Hanifin Avenue and was overwhelmingly greeted by residents who all wanted to sign and request that a full Environmental Impact Statement be done. There was only one resident who wanted to abstain as a conflict of interest.

EVERY other home had at least one person sign the petition in support. (There were only eight homes that did not have anyone home to speak to). That is 100% of the 60+ residents in this neighborhood. With more time I would have been able to speak to the last eight and anticipate their support. No one said NO!

*Judy Canniff
6 Chris Place*

We, the undersigned, ask the Village of Colonie Planning Committee to require a full Environmental Impact Statement on the proposed 24 house development called the Vly subdivision on land that used to belong to the Capitol Church. We request an environmental review to include; a study of all of the plants, animals, birds, bats, reptiles, amphibians and insects on the property. A delineation of any endangered, threatened or species of special concern, the geology of the property, water run-off, how the development may affect climate change, and sustainability. This undeveloped property is home to an abundance of wildlife, and as such a development will dramatically negatively impact this natural area and the surrounding community.

We are also concerned about the impact on traffic, safety and public services, including Saddlewood Elementary.
