Subject: Vly Rd. Subdivision

I have a couple of questions to be added to the record for tonight's (10/19) planning commission meeting:

1. When the planning commission gives the go-ahead to the developer to begin construction, how long will it take before that construction begins?
2. How long will construction last for this type of project?
3. When is the projected completion date?

Thank you,
Christopher Fatato
