Message

I would very much have liked to attend tomorrow night regarding Rosetti's plan. I'm not comfortable at all yet meeting in a public space. I'm wondering why it's not possible to do the village's business partly online? Other jurisdictions do this. The pandemic is far from over.

I am vehemently opposed to this potential project. We need to be saving our environment, not creating an apartment complex behind Vly Road that we don't need. There's too much land clearing, in my opinion.
